

Ethical and Environmental Code of Conduct

Arno-Remmen AB has adopted the following rules, which apply to all our operations, regardless of the country in which we do business:

- Ethical and responsible conduct
- Respect for the rights of all individuals
- Respect for the environment

The supplier shall ensure that its organization, and involved sub-suppliers, are compliant to all statements mentioned in this policy.

Legal Requirements

We expect suppliers to be aware of local, national and all other legal requirements in the countries where they do business and to comply with such requirements as a minimum standard.

Privacy and Data Protection

Suppliers shall have a policy regarding privacy and data protection compliant to GDPR. The supplier shall also have a process to ensure that the policy is followed.

Bribery, Extortion and Corruption

Arno-Remmen AB has zero tolerance in regard to bribery, extortion and corruption. Suppliers shall proactively work against bribery and corruption by prohibit all employees to receive gifts and/or benefit from external parties where it can not be ruled out that the purpose of the gift and/or benefit is to affect the employee's behavior and decision making.

Working Conditions

Suppliers shall respect human rights and workers shall be treated in accordance with the ILO Declaration on Fundamental Principles and Rights at Work.

Forced Labor or Compulsory Labour

Suppliers shall not use involuntary or forced labor. This includes all forms of agreements made under duress and illegal workers. No one shall be held at the workplace against his or her will, regardless of date or time.

Freedom of Association and the Right to Collective Bargaining

Suppliers shall, without retaliation or intervention, respect the right of workers to associate, organize and bargain collectively in a peaceful and legal manner.

Compensation/Wages

We expect our suppliers to understand that wages are important to the basic needs of workers. Suppliers shall comply with all applicable laws and ordinances on wages and time, including those which apply to minimum wages, overtime, maximum working hours, piecework levels and other compensation levels and offer legally agreed benefits.

Child Labor

Suppliers shall not use child workers. "Child" is defined here as a person under the age of 15 (or 14 if permitted by local law) or older if the local age limit for employment or compulsory school attendance is set higher. Suppliers who employ young persons who are not defined as a "child" shall also comply with all laws and ordinances applicable to such persons.

Health and Safety

Suppliers shall ensure that workers have a safe and healthy workplace in accordance with applicable laws and ordinances. We expect the supplier's management team to be involved in the continuously work to improve the health and safety conditions at the supplier. We expect appropriate protective devices and safety equipment for workers to be used, equipment and premises to be safe and hazardous substances and waste to be safely managed. Suppliers shall also ensure that the workplace is free of alcohol and illegal drugs.

Environmental Protection

Suppliers shall thoroughly understand and comply with environmental standards in accordance with national laws, ordinances and industry standards. The supplier shall promote the idea of environmental sustainability throughout the organization and strive towards a circular economy where for example, energy efficiency, renewable energy, air and water quality and responsible chemical management are key factors to obtain this.

REACH and RoHS Conformity

Suppliers shall fulfill their obligations under the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) regulation. The supplier will continuously review the ECHA "Candidate List" for additions and updates and act accordingly in compliance with REACH regulations. The list is available for viewing at www.echa.europa.eu.

Suppliers shall comply with the EU Directive RoHS, Restriction of the Use of Hazardous Substances in Electrical and Electronic Equipment Directive (2015/863/EU), by limiting the use of lead, cadmium, mercury etc.

Responsible Sourcing

Suppliers shall ensure that no sourcing of raw materials is done from conflict affected and high risk areas or extracted by uncertified practice methods. The supplier must also ensure that this restriction is enforced throughout the complete supply chain.

Subcontractors

We expect our suppliers to communicate and impose the same ethical and environmental rules of conduct on their subcontractors and manufacturers in the supply chain for goods sold by Arno-Remmen AB.

Upon Arno-Remmen's request, suppliers shall provide information about their manufacturers.

Inspections and Monitoring

Manufacturers/suppliers shall permit Arno-Remmen AB and its representatives to perform inspections to verify compliance with the code of conduct set out in this document.

Organization

In order to monitor and pursue the above mentioned issues, there is a Quality/Environmental Team at Arno-Remmen AB composed of the CEO, Quality Manager and Environmental Coordinator. One of the team's tasks is to monitor, develop and communicate Arno-Remmen's policies on child labor, environmental issues and other ethical concerns.

Kristinehamn, 7 June 2022
